· Received the 21st Nikkei New Office Award

WORLD LOGI CO.,LTD

<http://www.world-logi.co.jp/>

The World Logi Co. Ltd is a company at the cutting edge of international “3PL” (Third Party Logistics). Taking the opportunity of the 10 year anniversary of their establishment and the self-retention of a strategic physical distribution base, they opted to amalgamate their previously scattered offices. After gathering knowledge from a wide variety of industries within their group companies, they moved offices to the harbour district of Osaka in July 2007 and set up an information centre which corresponds to the various needs of their clients. With “playful but serious” as their company motto, they place great importance on the people they recruit and encourage a high level of communication between staff so the plan was to create an office to reflect their hard-working but sociable office culture. With this in mind, we created a communication and creative work-space rich in variation. We continue to rise to the challenge of improving office environments as needs evolve.

Spacious entrance hall, incorporating a gallery area.

Open-plan office, a layout which is expected to improve the synergy of the office as a whole.

Presentation room which uses AV/TV to make paperless meetings a reality.

Colourful break-out area, designed to facilitate easy communication.

Thanks to the "white-board wall-space", this meeting room creates an effective space for collaboration.

Optical Garden. Encourages communication in a vibrant green environment.

Cafeteria
